Q ACOUSTICS IS NOT LIKE OTHER LOUDSPEAKER COMPANIES.

NO HISTORY. NO TRADITION.
NO OLD 'BLACK AND WHITE' PHOTOGRAPHS.

THAT IS THE SECRET OF OUR SUCCESS.

Q Acoustics was established in 2006; not by a wealthy 'music lover' or retired 'rock musician' (who, in their marketing material, would inevitably claim to have spent decades being dissatisfied with all the speakers available and had therefore decided to make their own). Q Acoustics in contrast, was founded by professional businessmen with the sole aim of developing a highly successful loudspeaker brand.

It's that simple, a completely focussed, professional understanding of business has driven our remarkable success. Because we recognised, long before anybody even dreamed of designing our first products; the only way Q Acoustics could possibly enjoy commercial success was to design and produce loudspeakers which were, without question, demonstrably superior to their similarly priced competitors. In other words, we had to make the best affordable loudspeakers in the world.

So that's what we did.

Please do not misunderstand us. Although we have no history or tradition, we do have vast expertise. To produce the world's best loudspeakers, we obviously had to engage the world's best loudspeaker designers and provide unlimited access to the most advanced design and engineering facilities.

So that's what we did.

And that's what we continue to do.

THE 2000i SERIES HAS RECEIVED UNIVERSAL ACCLAIM FROM SPECIALIST REVIEWERS ALL AROUND THE WORLD

"Excellent all-rounders, and a towering success"

"Great sound and build at a great price: these are really fantastic speakers"

2050i - What HI-FI? July 2013 'Test Winner'

2010i

This ultra compact bookshelf speaker sets new standards for sonic performance in its class. Boasting class leading distortion levels, it is suitable for both hi-fi music and home cinema use and is an ideal match with the 2000Ci centre speaker and 2070Si subwoofer.

The 2010i can also be stand or wall mounted, using the dedicated 2000ST stand or 2000WB wall bracket.

THE MULTI-AWARD WINNING 2000i HOME CINEMA LOUDSPEAKER PACKAGE IS TRULY OUTSTANDING

5.1 Cinema Pack

We demanded unrivalled sonic performance and breathtaking value for money. In the award winning 2000i Cinema Pack, our designers have surpassed themselves. Its precision soundstage, powerful dynamics and rich deep bass make it the natural choice for both home cinema enthusiasts and discerning music lovers.

CINEMA PACK CONTENTS:

- 2 x Pairs 2010i Speakers
- 1 x 2000Ci Centre Speaker
- 1 x 2070Si Subwoofer

2070Si Subwoofer

Unusually at its price level, the Model 2070Si subwoofer is a completely DSP (Digital Signal Processing) driven system with highly efficient class D amplification. This has meant we have been able to achieve an advanced level of functionality, as well as optimising the sonic performance, by undertaking all filtering and limiting completely in the digital domain. An example is the Speaker Type function switch, which alters the characteristic of the subwoofer's frequency response at the crossover point. This allows the subwoofer to be optimised for use with either ported speakers, like the rest of the Q Acoustics range, or infinite baffle models.

2000Ci Centre

A centre channel speaker with twin 100mm bass drivers and a ferro-fluid high frequency unit to acoustically match and complement any of the 2000i Series. Removable rear port bungs mean it can deliver its outstanding, seamless performance whether it is bookshelf, stand mounted or wall mounted by using the 2000WB wall bracket.

CONCEPT 20: NOTHING SHORT OF SENSATIONAL

THIS EXCEPTIONAL PERFORMANCE HAS BEEN ACHIEVED BY USING BREAKTHROUGH TECHNOLOGY TO OVERCOME THE FUNDAMENTAL PROBLEMS OF SPEAKER DESIGN

"You find yourself immersed in the middle of a vast stereo soundstage"

Hi-Fi Choice, Editors Choice, June 2013

Concept 20

The 'Concept 20' is a special loudspeaker which goes beyond anything that Q Acoustics has achieved before. It's a beautifully styled product which we confidently believe provides a level of sonic performance previously thought impossible at its price point.

To achieve this extraordinary result, Q Acoustics' design team applied advanced technology to address the fundamental problem of cabinet resonance, widely recognised as the single biggest hurdle preventing 'high end' sonic performance at an 'affordable' price.

The 'Concept 20' proves cabinet resonance need be a problem no longer.

Its Gelcore™ Construction, 'cabinet within a cabinet' design, incorporates a bespoke, resonance absorbing, non-setting adhesive which converts the kinetic energy and disperses it as heat. This substantially reduces distortion and allows the individual drive units to deliver their optimal performance.

The 'cabinet within a cabinet' Gelcore™ construction dramatically reduces resonances and colouration.

"Superb...a scale and volume of sound that seems scarcely credible from such a small cabinet"

What Hi Fi? Sound and Vision, May 2013

"Exceptionally clean, controlled and detailed"

What HI-FI? Sound & Vision May 2014

Concept 40

The Concept 40 is Q Acoustics' flagship floorstanding speaker. It is the newest addition of the acclaimed, award winning Concept series and, like so many Q Acoustics models, delivers an unparalleled sonic performance at its price. We firmly believe the Concept 40 sets new standards, even outperforming many speakers in higher price brackets.

In common with the Concept 20, its award-winning 'little brother', the new Concept 40's extraordinary soundstage, dynamics and sheer musicality is achieved by incorporating its bespoke drive units into a 'Gelcore™ Construction' cabinet. This State-of-the-Art, ultra-low resonance and beautifully lacquered cabinet design allows the drive units to perform at their very impressive best.

The low distortion drive units incorporate powerful oversized magnets to ensure wide dynamics and an ultra-fast transient response. The elegant tripod stand allows the Concept 40 to achieve perfect rigidity and floor contact which further enhances its performance.

Even the speaker's attractive aluminium facia plate is not purely decorative. It's part of an assembly which clamps a butyl rubber sheet to the front panel to reduce cabinet resonance still further.

With 90dB sensitivity and a nominal impedance of 6 ohms, the Concept 40 is easily driven by any good quality amplifier. This striking floorstanding loudspeaker is available in either high gloss black, or high gloss white finishes.

DON'T BE MISLED BY BEAUTY.

THE 7000i SERIES SPEAKERS MAY APPEAR TO BE MERELY ELEGANT AND SLENDER 'SATELLITE' SPEAKERS. HOWEVER, THEY ARE IN REALITY, FULL RANGE, TRUE HI-FI SPEAKERS WHICH DELIVER A WONDERFULLY MUSICAL SOUNDSTAGE, EVEN WITHOUT A SUBWOOFER

7000LRi

Don't be misled by the appearance of this award winning model's small elegant, all aluminium cabinet. First and foremost, the 7000i L+R are 'full range', true hi-fi loudspeakers, capable of delivering an excellent sonic performance across a wide range of applications. Whether placed on a shelf or furniture; wall mounted using its beautifully designed integrated bracket, or free standing on the slim, dedicated optional floor stand, the precision of its dynamic, ultra-low distortion and spacious three dimensional sound will astonish.

Combine them with the matching 7070Si compact subwoofer and their already impressive performance is transformed; comfortably outperforming many large floorstanding models.

The 7000LRi speakers boast completely new 'High Excursion' drive units, 'Ring Radiator' tweeter and upgraded crossover. The result, when compared to its predecessor, the multi-award winning 7000 model, the new 7000i is a speaker with even lower distortion, faster transient response and more dynamic, yet sweeter and more natural sound.

7000LRi SATELLITE SPEAKERS

Stock Code

QA7827 Q7000LRi STEREO SPEAKERS BLACK PAIR
QA7825 Q7000LRi STEREO SPEAKERS WHITE PAIR

7070Si Subwoofer

The 7070Si is a compact subwoofer that, like its matching 'satellite' speakers in the new 7000i system, delivers a class leading sonic performance. The powerful 150W Class D amplifier drives a 200mm low frequency driver, as capable of faithfully reproducing the speed and 'twang' of a double bass as it is the prolonged, earth moving rumble of a 'block buster' explosion.

The 7070Si's revolutionary 'Internal Firing' design makes it less dependant on room position to achieve optimum performance. For ultimate convenience, the 7070Si can even be wall mounted using an optional bracket.

"The Q Acoustics is a mighty performer."

"The control and smoothness it brings is unusual for such small speakers and especially ones at such a sensible price point."

"Build quality is excellent"

AV Forums, Best Buy, December 2013

7000Ci Centre

The integrated table stand/wall bracket of the new 7000Ci centre channel loudspeaker attaches to the centre of the cabinet, allowing it to present horizontally. Apart from this, it is identical to the 7000i L+R models and therefore delivers an absolutely seamless soundstage for the listener.

Speaker Stands

The matching 7000ST speaker stand incorporates a 'cable management' system to hide your speaker cable and is elegance personified. It enhances the appearance and optimises the sonic performance of the 7000LRi satellites.

THE 7000i IS AN IDEAL SOLUTION WHEN THERE IS A REQUIREMENT FOR A SMALL DISCREET LOUDSPEAKER AND WHERE A SUBWOOFER CANNOT BE ACCOMMODATED

However, combine them with the matching 7070Si subwoofer and they will astonish you. Configured as a 2.1 stereo speaker system; their smooth, open, dynamic and ultra-low distortion sound quality comfortably outperforms many large (and far more expensive) floorstanding loudspeakers.

As a full 5.1 Home Cinema speaker package the new 7000i is simply unrivalled. Its precision soundstage, powerful dynamics and rich deep bass make it a natural choice for both home cinema enthusiasts and discerning music lovers.

"The Q7000i is a stunning package"

"Got £900 to spend on a sub sat package? Spend it here"

MADE FOR MUSIC AND MOVIES, THE M4 PLAYS MUSIC, TV AND MOVIES EQUALLY WELL WITH NO EXTRA BOXES REQUIRED

M4 HI-FI SOUNDBAR

THE IDEAL 'CLUTTER FREE' SOLUTION FOR GREAT TELEVISION SOUND

FOR FILM LOVERS WHO WANT TO 'FEEL THE EARTH MOVE', A SEPARATE SUBWOOFER OUTPUT IS INCLUDED.

M4

HI-FI SOUNDBAR

As well being the ideal solution for anyone who wants to enjoy great television sound but who doesn't want the 'clutter' of conventional speakers, the M4 Hi-Fi Soundbar is a complete hi-fi system in its own right. Simple analogue and digital 'plug and play' connections to your TV or 'Set-top box' will deliver class leading television sound, whilst an advanced Bluetooth connection allows you to wirelessly stream music from your smartphone, tablet or other compatible devices. Naturally, there's also a 'spare' analogue auxiliary input for you to connect a CD player or other source component.

FEATURES

- Powerful 2.1 soundbar with built-in 100mm x 150mm subwoofer
- Wide dispersion 65mm x 65mm BMR drivers for room filling coverage
- Built-in wall bracket and anti-vibration feet included for shelf-mounting
- Bluetooth with aptX and NFC close-proximity connection
- Optical input with high quality DAC, analogue inputs and automatic source selection
- Mono output available for an additional subwoofer
- Basic controls on facia and dedicated Remote Control
- Remote Control IR receiver supports Sky, Virgin Media and other remote codes
- W x H x D 1000mm x 105mm (90mm exc. feet) x 130mm (20mm at narrowest point)

CHANGE THE WAY YOU ENJOY YOUR TV OR TABLET WITH BT3

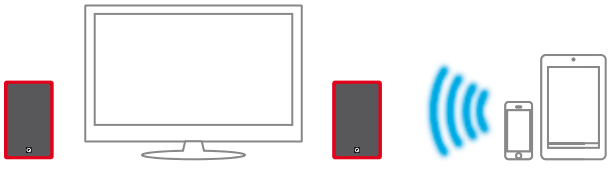
Simply connect the BT3 to your TV, or wirelessly to your tablet, and take your viewing experience to the next level. Whether you're using them for watching TV, movies or even playing games, the BT3 will deliver a huge improvement in sound quality.

REAL HI-FI SPEAKERS REAL STEREO SOUND NO COMPROMISE

STREAM MUSIC FROM: Mobile phone, Tablet, Laptop

CONNECT TO: TV, Computer, Satellite, Music player

On the top of the right-hand speaker are volume controls and a standby button. The light changes colour according to input used.



Stream music via Bluetooth®, plus connect the audio output from your TV or set-top box to the BT3's built-in 100W amplifier and enjoy sound quality that comfortably outperforms typical 'single box' soundbars and docks.

*BT3 is compatible with both Sky and Virgin remote controls.

"These speakers knock any similarly priced soundbars into a cocked hat"

What Hi-Fi? Sound and Vision, February 2014

"The BT3 does what its makers intend, being both a neat sonic upgrade for a TV and doubling up brilliantly for stereo music"

Home Cinema Choice, December 2013

"Dialogue...is so much clearer Muttered dialogue benefits hugely from the extra clarity" "Bluray and DVD is punchy and dynamic. Highly satisfying... powerful sound"

WHAT MAKES THE BT3 SPEAKERS SO SPECIAL?

Hidden within the BT3 speakers is a high quality, 2 x 50 Watts per channel amplifier, a Bluetooth V4.0 wireless receiver (with advanced 'aptX' capability for improved sound quality), and a low distortion Digital to Analogue Converter (DAC), accessed via an optical input. For movie lovers wishing to hear ultra-low frequency effects, there's a separate subwoofer output to connect your subwoofer of choice. A second line level input allows you to connect a CD, DVD, Blu-ray player or any other 'line level' source.

"A brilliant audio solution for nearly every requirement"

WHAT'S THE BEST WAY TO USE MY BT3 SPEAKERS?

The best way to experience the full capability of the new BT3 is connect it to your television or set-top box and enjoy it as a high quality, wireless hi-fi mini system at the same time! To make life even easier, you can control the volume and switch between inputs on your BT3 either with the small, elegant, infrared remote control included; or by the remote controls which come with many satellite and cable TV boxes, (including UK 'Sky' and 'Virgin' models).

CAN I USE MY IPHONE OR OTHERSMARTPHONE TO CONNECT WIRELESSLY TO MY BT3 SPEAKERS?

For ultimate flexibility and convenience, we've incorporated state of the art V4.0 Bluetooth technology (with aptX for near CD quality sound) into the BT3. This allows you to listen to music from any Bluetooth enabled Smartphone, Tablet or laptop. Then simply enjoy your music with the freedom and convenience that only a wireless connection can bring. This innovative product can be enjoyed in many different ways, from many different devices.

ARE THESE THE BEST BLUETOOTH SPEAKERS AROUND?

We're completely confident the Q Acoustic BT3 Bluetooth speakers set the standard at their price. The new BT3 isn't a jazzed up iPod dock or a modified table radio. The BT3 looks and sounds like a pair of genuine, superior quality hi-fi loudspeakers, for the very obvious and simple reason; that's precisely what they are.

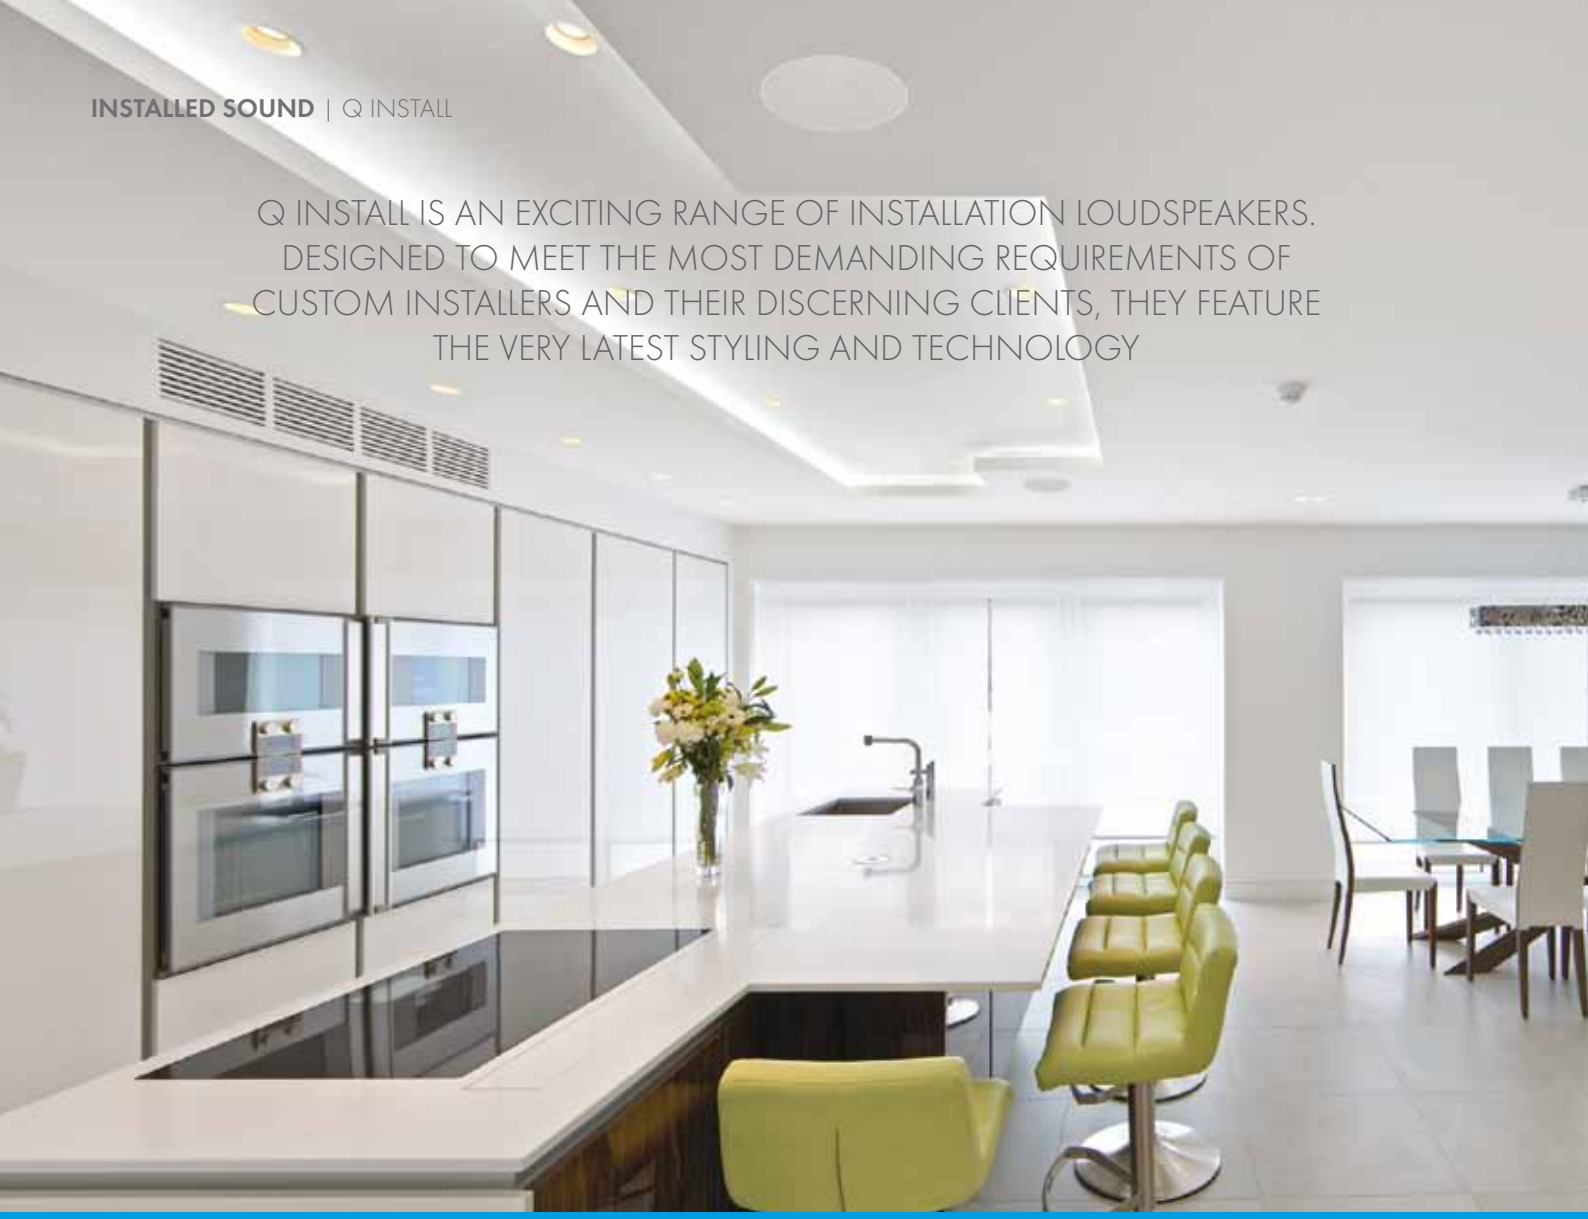
ARE THESE THE BEST TV SPEAKERS AROUND?

Well, we're too modest to say, but they're certainly great value and will deliver an audio performance that comfortably outperforms typical soundbars and other dedicated TV speakers. Appearance wise BT3 looks just like a pair of small, neat and stylish real hi-fi loudspeakers – because, under the skin, that's just what they are (and a lot more!) Placed either side of your TV, the BT3 speakers can connect to your television or set-top box for you to experience fabulous TV sound quality. Q Acoustics BT3 is ideal for television and movie lovers alike and for those who want to 'feel extreme bass', there's a separate subwoofer output to connect your subwoofer of choice.

LESS CLUTTER, MORE SOUND

The Q Media BT3 has been specially designed to dramatically improve the sound from your TV. Volume levels can also be controlled via the remotes from many satellite and cable TV boxes, (including 'Sky' and 'Virgin' models). Therefore you can experience movies, music and sport like never before without searching for that 'other remote'. In addition the BT3 has a built-in amplifier, therefore there is no need for a separate amp. This all adds up to less clutter in your lounge.

Q INSTALL IS AN EXCITING RANGE OF INSTALLATION LOUDSPEAKERS. DESIGNED TO MEET THE MOST DEMANDING REQUIREMENTS OF CUSTOM INSTALLERS AND THEIR DISCERNING CLIENTS, THEY FEATURE THE VERY LATEST STYLING AND TECHNOLOGY



FEATURES

- All the in-ceiling models boast polypropylene cones. In the superior 'Performance' variants this is an injection-moulded, mass damped, Nano Particle based driver cone, which delivers lower distortion and colouration.
- Q Install has used cutting edge industrial and acoustic engineering to create a striking bezel and grille design that clips magnetically into place. Circular and square grille options are available to ensure the perfect match for each customer's décor.
- Shallow depth requirement – all models are less than 84mm deep.
- Q Install speakers utilize 'UL94' flame retardant materials.
- Adjustable high frequency output level feature in the 'Performance' and 'Weatherproof' models.
- Swivel tweeters allow fine-tuning of the installation acoustics.
- Tweeters are fully 'open' on most models, avoiding the use of protective bridges through the integration of Automatic Tweeter dome Recovery technology (ATR) that restores the dome after accidental deformation.
- 'Performance' models feature a larger magnet assembly giving a 30% increase in program power handling capability. In addition; precision components are utilized in the crossover filters, together with gold plated connectors.
- Grille geometry has been carefully optimised to ensure the perfect balance between sound and discreet appearance.
- Square and circular magnetic grilles are fully interchangeable without any need to change or remove the loudspeaker.
- All models are moisture proof. The Weatherproof models (shown right) being suitable for more extreme use. Stainless steel fixings and corrosion resistant aluminium grilles are utilised together with fully sealed drive units to prevent water ingress.
- Q Install speakers come carefully packaged with an installation template and fitting instructions. All models feature protective driver dust covers and cloth backed grilles to facilitate painting should it be required.
- Many models are available as singles to aid installer convenience and reduce the overhead of excess stock.

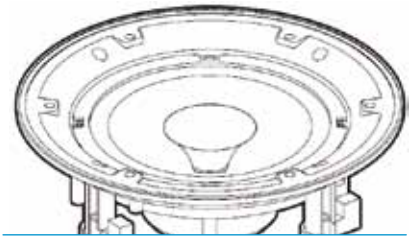
BACKGROUND IN-CEILING SPEAKERS



In property developments there is often a requirement to wire and install an unobtrusive in-ceiling speaker system at the lowest possible cost. These could be used for 'background' music distribution but often remain unused. In the event that a full entertainment system is being installed, the speakers can quickly and easily be replaced with higher performance models from the same range

GENERAL INFO:

The Qi65CB speaker has been designed to offer exceptional value in terms of performance and cost, its efficiency is particularly high, in fact it requires less than half the amplifier power of the standard Qi65C to produce the same volume of sound. It is also incredibly shallow making it Q Install's slimmest speaker with a maximum rear depth of just 73 mm.

The full range driver has been carefully designed to give good bass extension a detailed mid-range for voice reproduction and an extended high frequency range without the need for a conventional crossover and tweeter arrangement.

BACKGROUND SPEAKERS

Stock Code

Qi1105 Qi65CB BACKGROUND SPEAKERS (PACK OF 10)

Q INSTALL PERFORMANCE IN-CEILING SPEAKERS

nano driver technology

Nano Particle Technology

The advanced 'Nano particle' technology, incorporated into the cone material of the bass /midrange drive units of Q Install's 'Performance' series loudspeakers, delivers clear sonic advantages.

Nano particles are incredibly small, typically 100 nanometres in diameter, (which means 2000 of them, laid side by side, would be the same width as a human hair). Added to a conventional high quality cone material, such as polypropylene, they diffuse throughout the mixture to form a new nano-composite structure. The resultant cone boasts enhanced mechanical properties such as improved stiffness, reduced mass and an incredible 75% higher tensile strength. These technical advances deliver a faster transient response and reduced cone break up, leading to exceptionally low distortion, transparent and dynamic sound.

AND CONFERENCE FACILITIES

OUTDOOR SPEAKERS: ON-WALL AND ON-GROUND

Be entertained in your garden all year round with Q Install's dedicated, high performance weatherproof outdoor speakers.

Qi45EW

ON-WALL WEATHERPROOF INDOOR/OUTDOOR SPEAKER

The Qi45 is an attractive and compact wall mounted, two-way speaker system, ideally suited for both indoor and outdoor environments. Featuring a tough UV resistant ABS enclosure and aluminium speaker grille, the Qi45 is designed to provide many years of trouble free service whatever the weather. Its diminutive dimensions and versatile mounting bracket make it both easy to install and the perfect solution for providing music in many applications; including outdoor dining and restaurant areas as well as indoor public spaces and conference facilities.

Q Acoustics engineers have carefully crafted the Qi 45's audio performance to deliver an exceptional combination of clarity and focused power. Using a rigid polypropylene driver cone, high quality crossover network and bass reflex enclosure, they deliver results that comfortably exceed expectations.

Qi65LW

ON-GROUND WEATHERPROOF GARDEN ROCK SPEAKER

The Qi65 is the perfect speaker for those who want to create music in a landscaped environment. Finished in a granite effect texture and incorporating a wide range 6.5" woofer and 1" tweeter, the Qi 65 visually blends into its environment when positioned within outdoor areas such as bordered patios or alpine gardens. Its rugged glass reinforced polymer cabinet construction and weatherproof cable termination allow the Qi 65 to be located at ground level, making it easy to locate and install with confidence.

Q Acoustics have engineered a low resonance cabinet and optimised the driver characteristics to ensure the Qi 65 delivers a full and clear sound even at high volumes. This makes it ideal for high quality outdoor music reproduction, announcements or even atmospheric birdsong!
